

Overview of Conditions:

Double-miles are credited to direct flights on airberlin's new routes (see overview map) during the promotion period:

Booking period: 28/09/2009 – 30/04/2010 for travel between: 01/11/2009 and 30/04/2010.

This offer is only open to topbonus Program members. You receive the promotion miles in addition to the regular topbonus award miles – which you earn with every flight, dependent on the travel class you fly.

If a return flight is booked within the booking period, but one of the flights is outside of the travel period then there will be no double-mileage credit but miles will be credited as per the regular topbonus conditions. The same applies when a flight, which was originally in the promotion period, is rebooked to a date outside of the promotion period.

This promotion is only valid on flights which are operated by the airberlin group.

Issued: 25th September 2009
